Contact person: *Mr Sándor Kiss* director (30/630-8224)  
About the institution: [www.remek.hu](http://www.remek.hu)

The Workforce Development and Training Centre in Szombathely (ReMeK) was established by the Ministry of Labour and Szombathely Town in 1994. It is a member of a nationwide training network, which consists of nine members altogether. Over the last years ReMeK has become one the most dominant institutes in the training market.

Being a EU-member Hungary has a great chance to benefit from its well-qualified work power. That is why our training centre focuses on the most effective training forms satisfying the needs of employers and employees as well.

We are proud that besides our training programs we play an increasingly significant role as an examination centre. We are not only involved in the Hungarian state recognized examinations at different levels but also organize EU compatible computing (ECDL), business (EBDL), language (ECL), and welding (EWF) exams.
